Louis sent me a lovely green tie for Christmas day
& was addressed to me with a Devon
& I understand he was seen in

Fort Hotel
Sidmouth

Thursday 5 of March Term
1936.

Dear René

Just a very short note to thank
you for sending me the 3 parts.
If you can give me a time to see
all the old stuff again — as
what have we here — but as a
matter of fact I find there is very
little to alter. — I'm doing
them. I'm doing Part VII at the moment.
With a few alterations, all very excellent punctuation —
that's always been the curse.
Can't do it consistently. Any way
we can do that easily in typescript.
Part VI is much better than I thought
it was. I quite enjoyed the
jokes in places — like some very clever
stuff, after all this while. I don't
want to sound conceited or anything
like that, but it was better than
I had feared it would be — that's all.
Hope you got my letter. How awfully
about your old manuscript — find
my love to Peter & Denis. I
do feel sorry for them & everybody
I cannot do. I am rotherly

the corner of the Westminster Station to-morrow.
I understand he is a very charming man.
I had a P.C. from Pandora the dog
she is happily & working at the old
inscription and Turing's parents have arrived.
It's been pretty rushed lately - another
type of cold & flu, - low, so low,
temperature. & a shot in the head
nerves - Bugger off. I say
Be off - want you. Not a word.
I do like you an almost.
Had ni wire from Harman
he likes the Preface - &
says he is trying to write to me - I
do like him so much. Nice
Harman. Well, must to the post
Love to you & Joan - wish
I could see you. so much.
Saw a snake sunning himself on
a grassy bank - a bronze one -
I gave him a poke, but he
did not move very quickly - he
was tired I think.
Much love David.
